

Centre of Excellence in Microwave Studies in  
association with Enerzi Microwave Systems

Year of Establishment : 2018

## Objectives

The mission and primary objective of the COE is to train Ph.D. and UG students to actively take part in industry-oriented research work and excel as research professionals.

This is accomplished by:

- Engaging in short-term and/or long-term research projects
- Providing industry-institute collaborative internship
- Exposing to real-time industrial and/or research problems
