Theory (SEE) marks, Term work marks and Viva marks : 40 % in each.

Open and Core Electives :

Elective courses will provide some of the most valuable and memorable learning experiences in the Design program. The design electives allow students to diversify or concentrate their areas of knowledge.

Students may select courses in digital applications, history and theory, advanced drawing, photography, visual training, design, management, and specialized independent studies.

Advanced courses in materials, construction technology, energy-conscious design and structures emphasize the interrelationship of engineering and design. At the same time, digitally-enriched electives will maximize you're readiness to use tomorrow's most sophisticated design, analysis, and presentation tools.

Courses in entrepreneurship, project and design management and other subjects will prepare you for the day-to-day practice of design.

Open Elective Course(OEC) enables an exposure to some other discipline or domain to nurture the candidate's proficiency or skill. Open Electives can be chosen from the approved list of the institution, from subjects of study other than Design which will add value to the course and enable the overall development of the student.
